Profile

I am a young, creative and enthusiastic web developer with over 2 years of experience building various Web Applications; be it as personal projects or professional work. I am well-versed with technologies such as HTML, CSS, Vanilla JS, Typescript, Solidity, Web3 JS, React JS, React Native, Express JS, Redux, gsap, THREE JS, MySQL, MongoDB, Mongoose etc. I currently work remotely as an Intern for a company in the UK.

Education

University of Calabar 2019 – 2023

Bachelor of Science in Environmental Science

Christian Science College 2011 – 2017

Senior School Certificate

Auntie Margaret International School 2005 – 2011

First School Leaving Certificate

Employment

Full-Stack Web Developer at SockTech 2020 – 2021

Worked as a Full-Stack Web Developer for SockTech (a start up company at the time) for over two years.

Part-time Freelancer on Upwork 2020 – 2022

Developed numerous websites of all types and guaranteed that they exceeded the expectations of our clients.

Internships

Industrial Trainee at Nearkeen Technologies 2020 – 2021

This was where I gained most of my valuable professional skills in terms of working with other people

Industrial Trainee at Reboost, UK 2022 – present

I started working here on October 2022, and I have worked predominantly with React.js; building tons of website templates.
